

TravelMate B116

Your best classmate

When choosing a laptop for school there are many factors to consider: portability, usability, performance, productivity. With its 11.6" display, capable processor, plenty of memory, large hard disk, lightweight and thin design, the **TravelMate B116** ticks off all students' needs. Easy to grab and bring at school or at home for homework, it is about the size of an exercise book and fits effortlessly in the backpack.

- Fan-less design for ultra-quiet computing
- Slim and lightweight
- 11.6" display with Acer BluelightShield™
- Full-size keyboard for a great typing experience
- Precision Touchpad for optimal mobile computing

Windows 10. Do great things.

Unique design

Do you want to lug around a heavy, nondescript notebook? Of course not. Meet the **TravelMate B116** with its unique FlowCurve design making it sporty and bold. The body is only 21.2 mm thin, and the tapering profile makes the B116 not only look even slender but also easier to grab. Moreover, it's lightweight and small enough to fit into any backpack or messenger bag.

Impeccable performance

Packing powerful Intel® Quad-Core processors, Intel HD graphics, up to 8GB of memory and Windows 8, the B116 ensures very smooth everyday computing allowing efficient multitasking.

Students will be able to tackle school projects and homework as well as enjoy extra-curricular activities, such as social networking and video-chatting. Gigabit LAN and wireless with AC support translates into fast Internet speed, even where Wi-Fi connectivity is erratic.

Comfortable computing

Featuring a smart fan-less design, the TravelMate B116 is extremely silent, so it is perfect for quiet environments. The full-size keyboard makes all the difference when you need to write at length, while the new sleek Precision Touchpad offers more precise interaction.

The 11.6" **Acer ComfyView™ Anti-glare display** enables clean-cut visuals even outdoors, while Acer BlueLightShield™ technology reduces the harmful blue light emission to protect the user's eyes.

Ready for work

Powerful sound quality and a webcam with HDR support mean more enjoyable video calls and online learning, for better collaboration. To keep cables out of the way HDMI, USB, and Ethernet ports are placed on the rear panel, while the most frequently used ones, such as audio jack and SD card slot are placed on the left side. Students will want their photos, their music and even their games on the device: with up to 1TB of space they can store pretty much everything they want.

Built-in manageability and security

Easy manageability is a key feature for organizations. The TravelMate B116 comes with **Acer Office Manager** so that users can deploy security policies, monitor IT assets and set maintenance tasks even without dedicated IT staff and equipment.

Acer ProShield allows users to maintain their credentials, data protection and web accounts. For added security, users can log in via webcam and face recognition technology.
